Summary

Dedicated Flutter Developer with 4+ years of experience developing cross-platform mobile applications for Android and iOS using Flutter and Dart. Skilled in RESTful APIs, Firebase, state management, MVC/MVVM architecture, payment integration, push notifications, Google Maps, Agora, Git, and CI/CD. Experienced in building scalable, maintainable, and high-performance mobile applications.

Professional Experience

Flutter Developer (*GHO Technologies Private Limited*) **kochi, kerala** *August 2024 – Present*

- Published and maintained Flutter applications on Google Play Store and Apple App Store, managing production releases and updates.
- Developed cross-platform mobile applications for Android and iOS using Flutter and Dart.
- Implemented push notifications for Android and iOS using AWS SNS and Firebase Cloud Messaging (FCM).
- Implemented unit and widget testing to improve application reliability and code quality.
- Implemented scalable state management using Provider, GetX, and Riverpod.
- Integrated Agora video calling for real-time telemedicine consultations.
- Integrated Google Maps and location-based routing, improving delivery route efficiency by 20%.
- Integrated Razorpay and Stripe payment APIs for secure in-app payment processing.
- Implemented data security practices to protect sensitive data during storage and transmission.
- Implemented MVC architecture to develop scalable, maintainable, and modular Flutter applications.

Flutter Developer (*Simplify Agri Private Limited*) **Palakkad, kerala** *June 2022 – June 2024*

- Collaborated with UI/UX designers to implement responsive and user-friendly mobile application interfaces.
- Integrated RESTful APIs and backend services, Improved app performance, reducing load time by 30% and increasing user retention by 15%.
- Implemented scalable state management using Provider and BLoC for maintainable Flutter applications.
- Used Git, GitHub, and GitLab for version control, branching, code management, and team collaboration.
- Integrated CI/CD pipelines to automate build and deployment processes, reducing release time by 30%.
- Tested and debugged Flutter applications to identify issues, improve stability, and ensure reliable application performance.
- Implemented Clean Architecture and dependency injection to improve application scalability and maintainability.

Junior Flutter Developer (*Binate Station Private Limited*) **Kochi, Kerala** *February 2022 – June 2022*

- Optimized app performance, reducing load time by 30% and improving user retention.
- Implemented unit and widget testing to improve application reliability and code quality.
- Worked in an Agile Scrum environment, participating in sprint planning, daily stand-ups, sprint reviews, and retrospectives.
- Applied MVVM architecture and software design patterns to develop scalable, maintainable, and modular Flutter applications.
- Participated in code reviews and followed clean coding practices to maintain scalable and maintainable Flutter applications.

Internship

Junior Flutter Developer (*Ralfiz Technologies Pvt Ltd*) **Perinthalmanna, Malappuram** *August 2021 – January 2022*

- Explore and implement third-party libraries and APIs to enhance app functionality.
- Explore Flutter widgets for iOS and Android.
- Integrated Firebase services, including authentication, cloud storage, and real-time database functionality.
- Gained experience across the Flutter development lifecycle, including development, testing, deployment, and maintenance.

Skills

- **Mobile Development:** Flutter, Dart, Android, iOS
- **State Management:** Provider, BLoC, GetX, Riverpod
- **Architecture:** MVC, MVVM
- **API & Backend:** REST APIs, RESTful APIs, Dio, Firebase
- **Notifications & Communication:** Firebase Cloud Messaging (FCM), AWS SNS, Push Notifications, Agora
- **Maps & Payments:** Google Maps, Razorpay, Stripe
- **Version Control & DevOps:** GitHub, GitLab, CI/CD
- **Database & SQL:** SQL, Microsoft SQL Server, SQL Server Management Studio (SSMS), Stored Procedures, Database Management
- **Development Practices:** Agile/Scrum
- **Web Technologies:** HTML5

Projects

Mallu Cafe Radio USA :- Audio Streaming Application (*Android*) (*iOS*)

Aarogyam by Aabind :- Healthcare Platform for Aabind Hospital (*Android*) (*iOS*)

Aabind Connect :- Comprehensive hospital management application for Aabind Hospital (*Android*) (*iOS*)

PRx.Care :- Healthcare Scheduling and Care Access Application (*Android*) (*iOS*)

PRx Assist :- Hospital Management Application (*Android*) (*iOS*)

Global Health Opinion :- Expert Medical Reviews and Second Opinions (*Android*) (*iOS*)

GHORx :- Doctors' Application for Reviewing Patient Cases (*Android*) (*iOS*)

Big Dance Centre :- BDC offers diverse dance classes led by over 25 expert faculty members (*Android*) (*iOS*)

LazyPay :- India's credit super-app for instant loans (*Android*) (*iOS*)

Crop Clinic :- Farming Assistance Application (*Android*)

Education

Master of Computer Application *University of Calicut*

CGPA: 7.3 *2018 – 2021*

Bachelor of Computer Application *University of Calicut*

CGPA: 6.3 *2015 – 2018*

Certifications

- **Flutter Development Internship Certificate** — Ralfiz Technologies Pvt. Ltd., August 2021
